Professional Summary

Software Engineer II with 3+ years of experience building Java/Spring Boot microservices at scale. Experienced in building Agentic AI applications with Google ADK,LLMs, Multi Agent orchestration using LangGraph and Agentic AI at scale with **1M+** active users.Hands-on experience with React, Typescript and other front End Technologies

Technical Skills

Languages: Java (Core, OOPS),Javascript,TypeScript,Python, C, SQL
Technologies Frameworks: Spring Boot, Fast API, ReactJS, Javascript, Microservices, REST APIs, Typescript, MicroFrontEnd, mongoDB, redis, Kafka, Distributed systems
Observability & Telemetry : ELK Stack (ElasticSearch,, Kibana), Grafana, Prometheus, AWS
AI Tools Technologies: Google ADK, MCP, RAG, Lang graph, Langchain, LLM, ToolCalling, Agentic AI, A2A communication

Experience

LOWE'S INDIA **May 2025 – Present**
Software Development Engineer II – FullStack AI *Bangalore, Karnataka*

- **Conversational AI Agent :**Designed and delivered AI-agent-driven workflows using Google ADK, Langgraph, LLM tool calling, FastAPI enabling conversational execution for Inventory replenishment and Demand Forecasting
- **Designed and Architected Demand Forecast Scheduler :** Created **event-driven** workflows using Apache kafka, MongoDB, kubernetes cronJob for Automating the scheduling process for Submitting Purchase orders for the project and Cancelling orders with a cutoff period for a project
- **Latency and performance Optimization :** optimized the **agent latency** and prompt token usage with bypassing the predefined JSON structures through the LLM underneath. Which significantly reduced the per call to agent by 2-3 sec
- **Product Search Implementation:** Designed enterprise item search with mongoDB using **weighted indexes** supporting 7+ searchable dimensions with bounded pagination of 20 items per page targeting less than **1sec** search responses
- **Session Management :**, implemented **Redis-backed** distributed session management using spring session for application transactions/ workflows enabling **centralised session persistence**, faster session retrieval and consistent session state across multiple application instances

LOWE'S INDIA **June 2023 – April 2025**
Associate Software Engineer – Backend *Bangalore, Karnataka*

- **SSO Integration JWT authentication :** Implemented Enterprise SSO with JWT-based authentication with OpenId connect (OIDC)/ OAuth 2.0
- **Cart checkout Integration :** Integrated cart Checkout service using Spring cloud **openFeign** for declarative service-to-service REST communication with auth headers, Global exception handling resulted in reduced API failures by 20 percent and **maintained p95 latency below 200ms**
- **Item Eligibility rule Engine :** Designed specific set of rules and criteria for order eligibility, restocking fee calculation, Returns and exchanges contributing to decreased fradulent rate and **$1.1M+ revenue enablement**.
- **Feature Development :** Developed responsive UI for payment collecting feature with ReactJS, TypeScript, Vite and integrated with Backend service with end-to-end validation
- **Distributed logging and monitoring :** Implemented centralized logging and monitoring dashboards using kibana logs and **Grafana dashboards** for end-to-end monitoring of microservices which helped in reduce resolve time by **30%**

Projects

E-Commerce Web Application | *ReactJS, SpringBoot, MongoDB, JWT*
- Developed a Fullstack application with key workflows including user Authentication with JWT, cart,order management
- Implemented JWT-based authentication and built RESTful APIs with proper authentication and responsive UI with ReactJS and typescript

ACHIEVEMENTS /CERTIFICATIONS

- **Ranked among the Top 5** out of **48K+** participants in a national hackathon conducted by Lowe's India, earning a full-time offer for exceptional performance
- **Team Excellence Award -** Recognized for outstanding contribution to **Exchanges Project** for Various Features like Unlike Exchange for supporting over **1800+ Stores** with **99.9% uptime**
- Got **Global Rank 349** in **Codevita** Season IX

Education

CVR College Of Engineering (JNTUH) **2019 – 2023**
Bachelor of Science in Computer Science *Hyderabad, Telangana*
